

**Participant/Subscriber
IDX Agreement**

“Internet Data Exchange”, (IDX) (sometimes referred to as Broker Reciprocity) is a means by which each Participant of Mid America Regional Information Systems, Inc., (MARIS) subscribing to IDX, permits the display of its active and contingent listings currently appearing in MARIS’s MLS to be displayed on another IDX Participant’s Internet web site.

Subscribers that are affiliated with an IDX Participant, either as a non-principal Broker or sales licensee will be allowed to “frame” the Participant’s website or to “gateway” to the Participant’s site, once the Participant and the subscriber have signed this agreement and it has been received and approved by MARIS.
